

GLOBAL FUTURE

Presenter: Mrs. Lana Praner with The Lords, Brežice, Slovenia, January, 2020

Jasara.

There. We'll be able to slowly start in our world too.

Kind and heartfelt thanks for such nice and pleasant words, for introductory thoughts and Our accompaniments. Therefore our sincere thanks.

Above all, beautiful heartfelt thanks to all of you, who responded to Our invitation to spend some time with us again.

Today the honour belongs to me, to collaborate with you, with all of you, who are in a way at a final stage of your own journey. Perhaps at a final stage of your own journey on the planet Earth. Who knows, where and which way are you driven to in this beautiful and marvellous morning?!

My name is simply and only Sovereign Man Jorgovski. That is how I am named or praised by others.

Just to let you know who you are spending time today with.

Today's revelations are a big wholesomeness of everything that comes through the approval of My Beloved Father, through the permission of other Sovereigns, that co-created different realms, before they allowed and created last world of earthly creation, that you have named planet Earth.

ZEM BANDRUNI WAS THE PREVIOUS PLANET OF PLANET EARTH

In a previous life, where the last planet of the last realm was there, you named yourself completely different and that is Zembandrini! Zembandrini is actually derivative of planet Earth or life itself. Life of Earth or living life, that is how we would translate your previous planet. And from that you travelled through history and named it, as you somehow nominated it planet Earth.

Planet Earth is just space, in which you once again, decant, travel and coordinate.

Planet Earth is actually a world and a chance of transformation to all of those, who are here in a compact form, to all of those, who were in a compact world before and co-created a certain part. At the same time Planet Earth is intended for all the energies that have ever created any memory.

Because of the memory, that was created in ancient times and has, many of you co-created, because only few are those who were somehow entering in a time of the first inhale, in order to inhale and change the earthly ether. There are only few!

Because at the final stage, at which you are right now and in which you are travelling, the world is intended for those, that, on a previous planet, didn't succeed or you didn't succeed, however,

couldn't gather enough strength, to stop the memory or events, that have created the memory, because of which you sail in collective karma all over again.

In a previous life or planet, on which you stayed, you brought everything to the point of explosion, to the point of disharmony and the planet, that was more beautiful than earthly creation, much bigger, with much higher vibration, you brought it to desecration.

Unfortunately, everyone that is on earthly planet today, was in existence on a previous planet back then as well. Each and everyone !

Because of some kind of religion or it's placement, this is actually an area or place, on which other worlds were bind, as well as time lines and places, that have been trying, even in a previous journey, to change the records.

And as you see and observe, this is exactly why you are highly spiritually developed, you are transitioning in a stage of forming yourselves, where you EXAMINE and where you are setting identical record again. Everything that has been left and hasn't been outlived yet, namely in the cycle of a quicker ending, you are finishing, correcting and TRYING, if you are even still trying to harmonise anything in this world, that is added and dedicated to you.

Unfortunately, people who are on Earth are embodied with accompaniment of slavery and therefore, because through history, on a previous planet, you were one of those people that were simply quiet, graceful and humble. Humble in such greatness, where they didn't dare to resist, where in this previous planetarium constellation, you first served to Mother Nature, and only after that to ruler beings, that ruled to the previous world.

Almost everyone, not to say each and everyone, that were ruling back then, are ruling again, in this world of this travel.

ONLY UNITY CAN STOP AND CHANGE THE RECORDS

That is why a revolt of the masses and that is why you do not want to take part in elections, because the soul knows the soul.

The soul knows exactly, who used to be and you don't feel like it anymore. You don't feel like it, because you know exactly where all of this is taking you. **On the other hand you would have to be very much awake, harmonised and unified. Because only unity is capable of stopping and changing records.**

Everything you are moving through is just a memory. A memory, that used to be alive and that is alive again or it will awaken and happen again.

The memory is improving and renewing for as long as it needs to and somehow regenerates, until someone steps out of it. And that is when it slightly transforms and it continues again.

WHAT IS HAPPENING AROUND THE WORLD, IS COMING TO US

Because today, when you observe your own world, I will say, first the planet Earth, you are not interested at all, almost no one, what is happening around the Earth.

But if you would observe the vastness you would see the narrowness too. That is to say, if you would see wider, to what is happening around the world, you would know, what is coming to you! Because you are nothing else but a part of the whole of this creation, of planet Earth.

That is why I would suggest you to wake up and see what is happening around the world!

Because few things that were happening three, four years or five years or nine years ahead of others or in the period of other countries, is coming to you as well. Because this is a collective karma, through which you intertwine.

Because all of those who are making decisions about the authority - I apologise to everyone that are making decisions, because they are making them very poorly, because very simply, all they see and you see or they are going to see is only one path - salvation in money, which is your devastation!

Unfortunately, these are all people, who already, once, caused corruption, and therefore haggling happened as well as demolition of the planet, where Mother Earth has withdrawn itself.

WE ARE DRIFTING IN TO OUR OWN ENDING

In the same process, when you look at things globally, if you are even capable of looking, unfortunately, globally, because you aren't interested at all in what is happening globally, you would actually see where you are drifting. You are drifting in your own ending!

The Earth will strongly reshape itself, not just Slovenia, which I will squeeze myself into.

When you will see things globally, you will definitely get scared. Which is normal! I would get too! **Because the Earth is boiling more and more. If you see, just on the Earth, just in earthly space, so many volcanos, that have never been awakened before, it would become clear and understandable to you, that the Earth is boiling.**

And it is not just the surrounding that is boiling, but it will boil at your place as well!

You are nothing else than that, you are part of the whole surface.

When little **Slovenes** say: "It's there, somewhere far away in the Philippines! It's somewhere far away, in America! It's somewhere far away, let's say in Canada. It is somewhere far, yet so very close."

That is to say, you forgot, that the Earth was as one unity, a whole, one surface, ONE volume, that because of seemingly tectonic movements, as you like to name it, started to change,

transform and sink. It has transformed many times and in a way came to its senses. That is why certain civilisations have literally sank and drowned.

Now you are coming in to a new transformation, because the Earth will redesign itself again. But that won't be somewhere there far away, somewhere far away from you, because you are on the same continent. That is why, whether you like it or not, start observing, what is happening else where and what will happen at your place as well.

Because only based on this you will know what is coming your way !

People that govern your country, used to govern other countries and they allowed themselves to be haggled. That is why they have a record of haggling. And even in this life time they haggle again and again. But they are not occupied with what descendants will be left with, because, unfortunately, they do not have this memory that they would be burdened with it, at all.

That is why stay awake, and you are the ones that are setting boundaries and stating requirements for how much you will let the terrestrial world to change.

SLOVENES , WE WERE FIRST AND AUTOCHTHONOUS POPULATION ON PLANET EARTH

You have to know, that Slovenia by its shape, if you look at it as your chicken or a hen, as you like to have it drawn, is actually the image in which you once ruled as well. As the whole earth you were formed mostly in this image, as you have it now.

Actually, little Slovenes, whether you like it or not, you were the first autochthonous population on planet Earth. And that is why your language is still preserved and so are your diacritics (e.g. č, š, ž) that were and are still present only in your language.

Whether you like it or not, if you look at the old records, not just at the Egyptian time, on pyramids, but also in older records you will find your words. Why?

Because you **were the ones, that initially ruled and let foreign civilisations come among you, to you and they somehow haggled, balanced and coordinated.**

FOREIGN CIVILISATIONS WILL ENTER OUR WORLD

And what is happening nowadays?

The same as it was happening before!

Again you are in transformation and again there are seeming stars above you, that are moving and are hiding behind the name or nickname satellites. Beforehand, before the stars somehow disappeared, stars that you knew, those in its real meaning - among them there was a satellite too, that travelled on a certain line and placement, that you ,if you were aware, could see as well, because you could admire it, because it was extremely rare, and **nowadays you came in to time, where starry sky is just a past!**

And if you will observe the starry sky, you will see, that stars are shining brighter and brighter. Not just the ones on a rocket drive, if I might joke a bit, but these are actually crafts that circle above you.

Same period in which it was happening before the Slovene civilisation of the primordial creation kneeled and yield.

That means that certain old civilisations, that were passing through on planet Earth from elsewhere, because the planet Earth is very populated and placed completely differently as you would like to accept, you might look on a planet Earth from a different angle, once you will understand, that you are just one of the layers. As chakras, which are subsequently positioned one above the other and it is actually just space, just a world, in which you partly live or rule.

Why did I focus on sort of stars that you are having and on which you are so very proud ?

Every second star is, well, actually your North Star, that is moving, when they give it some spin!

As second, many are laughing. As third, many people are crying: " What is happening to us?" And then clever people appear and quickly, quickly release seeming satellites among you just to appease you and calm you down.

Well, if we move slightly forward, you will even loose those crafts , that are now moving as a **research** ones, some sort of a civilisation, that is researching, waiting and is preparing for something bigger, that you even dare to think.

Actually, the history will repeat itself. Whether you like it or not, accept it or don't, these civilisations will enter your world, your life. They will be among you. They will come down to Earth.

And among them you will not find just perfect and somehow primordial and autochthonous civilisations, that are meant to be good for you or not.

Civilisations, that are here, are so very different, because, once you will get to know them, it will take your breath away! And it will be hard to differentiate, which one you prefer, because they will be different from you just by the body structure.

But you know - how to choose the best? How to choose the one that is equal when you will praise each and everyone that will touch the Earth's surface. Interesting and pleasant.

You will all, somehow, bow and somehow accept and praise and liberate, but in truth you won't know anyone, but you will hope to get something from them. Because this is how you are oriented.

Slovenes you are no different than the others!

Only civilisations, that quietly entered the earthly ether and lived in Earth and were somehow developing themselves and somehow developing a human being in a different progress, they are coming through as an entering point among ordinary people. Therefore, yes, you will meet them face to face very soon, as well.

How to recognise that one who is the right one?

NOT BY THE MIND AND REASON BUT BY THE SENSE OR FEELING. Only those that you will sense as the good ones, you will then choose well. Those, that will look at the outward appearance, will choose the outward appearance. Your character will be seen very soon and somehow traverse above you. These are facts, that not only you, Slovenes will face, but also the whole wide world, foreign people, differently spoken people, and differently coloured. It will be nice , definitely.

But I call upon you Dear little Slovenes, PAY ATTENTION TO ONLY THOSE, THAT ARE WARM - HEARTED. And until you won't awaken yourself in the sense or feeling, never and ever will you be able to choose only the best of the best.

Therefore, pay attention to it!

That is why, everyone that have been building themselves up and have been working on themselves, and didn't search and somehow decant here and there and weren't all the time trying out what is best for you. But those who sensed the meaning of spirituality and you absorbed it in as a part of your life, you will definitely choose what is right.

Those, that are still running around here and there and are trying out and somehow searching for that something special, those of you will be looking for that something special in their world as well.

Yet, the very same civilisations, that are above you and so very close to you, those that are getting closer to you and you will, very soon, see them face to face, are those, that brought developmental phase so far, as you know it today or you don't at all.

HAARP technology was a technology, that was developed by someone that was known to you as Tesla. However, he revealed it and set it in a completely different direction. He was revealing the importance of how good it is to always have the sun and the right temperature, the temperature of a paradise world. That is why he was researching something that was given through foreign creation, foreign civilisations, their knowledge.

But I'll be darned!

And when it is in people's nature that they don't see the best but what they see are just benefits. That is how they got rid of him. And this is how they came to different **information and knowledge which is massively used against you while you're asleep.** today massively used against you, while you are asleep.

Very likeable!

When you just look in to the world of life you are having, not even a year ago, you will gladly talk about the fact there were 360 days of foggy days out of 365. How can you Slovenes be so intelligent about it? How can't you see, that you used to have fog only a month or two, in the time of autumn time, when the Earth was breathing differently.

But nowadays it isn't fog, but poison, that is released above you with airplanes and are therefore called chemtrails. But, this is a mild word for it, in which you have everything, what a human being had in himself as birth, as embryo, as a disease, as a condition. **They are releasing**

peaces of the diseases above you, I will say. I won't reveal everything, so you won't get completely scared! But maybe it would be good ?!

In these chemtrails of yours , there isn't hidden only the worst poisonous metal, that numb the human being, which causes a person to get sick, which causes a person to become striking, numbed, emotionless, somehow without the compassion for nature. - as if you are numbed. They are releasing not just a cancer, but new diseases that will come above you. Respiratory diseases, which will cause you to spit blood. Respiratory diseases, that will bring you in to the state where the brain will boil. Diseases that you don't know today, will be sprinkled above you in a flash of light but only because , you little Slovenes, you are asleep. But not just Slovenes, also few outside your borders.

But gradually, I will focus on Slovenes only. You are the most dear to Me, you are the closest to Me, since My big Sweetheart is actually Slovene. That is why I somehow decided I will be speaking and explaining about Slovenes especially.

SLOVENIA WAS EXTREMELY GRACEFUL AND BEAUTIFUL

Slovenia, that extremely graceful and beautiful WAS, because it is not what it used to be!

You don't have clean air anymore, because you are completely careless who is releasing what, releasing what.

Over and over again all we listen to is this: " What can we do about it? Nothing! Cover yourself at home and sleep! This is the best, until your lungs can take it, until then you will live. Not to mention your heart. I will not even speak of the disease that are coming among you. About the diseases, that are coming among you, I will not even speak of.

I can whisper it to you, that because of chemtrails and HAARP technology and one additional technology, that you will notice quite soon, that partly effects the flow of time, day, temperature and not just cold, you will realise, that they are blocking the sun.

Why Sun?

Because that is the source of your food, my dear ones! If there is no sun, you are gone as well!

Can't you see that you are numb, you are sad, you are emotionless , you are actually as robots who are somehow pushing their bodies in motion. You don't have sexual passion anymore. **You don't have the need after belonging or to belong.** You are looking for just whatever, **one over the other.**

Gradually, you will say, that you mate as animals, as snakes, that are crawling one over the other. **And especially because you are loosing your sense of your own pillar and that is the programming, through which with the help of vibration, because of different vibrations and changes of magnetic field, are taking you to the point when you will only function on a button or drive.**

**Poor little Slovenes, you have no idea what is ahead of you!
But this is what you need, so for once you will finally turn inward, if you won't be too late!**

Until the majority is asleep and only the minority is pushing forward. Only the minority is actually brave, that has courage to speak up, stand up, that are pushing others any further.

Try to follow them!

Don't make fun out of people that dare and are capable to step ahead and to speak up, or on a street or in public! Because these are people, that are slapping you and reminding you in what time of ether are you right now.

MODERN TECHNOLOGY IS A NEW MILITARY WEAPON

Modern technology will percolate among you in a cunning way. Here and there the 5G is already turning on, which is so "healing" if I can make a joke, if I am even allowed to that anymore! Because this is a military weapon, with which they can degrade you in just few minutes!

When they turn up the frequency, they burn your brains, they burn your body, and so many other things as well!

But developmental phase goes on.

Because there is only one million people that they need on planet Earth, because there is not more room!

Because the Earth will transform itself. It will friction enormously. Many continents will be disappearing. Many continents are going to sink.

Slovenia will be part of many earthquakes as well.

You keep forgetting you have many factories, that are more or less carcinogenic, poisonous which are poisoning people and everything there is around.

Why are you afraid to unite? Why are you afraid to stand up? Why are you afraid to step through those doors and shut down the workshop.

What money, my dear ones?! **WHAT MONEY, WHEN YOU DON'T EVEN HAVE HEALTH?!** Look at yourself, the way you are! How much smile do you still have on your face? How much do you allow yourself to even love genuinely.

Just here and there, you take someone close to you, under you, so you empty yourself a little bit. I would be truly ashamed!

But this is just repeating the same old again.

And the modern technology will not bring you a modern program of watching a television, because you won't exist anymore. How will the new technology serve you at watching video

games, watching some sort of televisions, watching something that will disappear who knows where?

But you won't exist anymore as well my dear ones!

Because the Earth vibrates, it breaths. And because the Earth breaths, it vibrates on a certain frequency. And this frequency is reached by people, animals, plants as well. You all breath the same ether. But as we hear over and over again:” Yes, but what can we do ?” Well, nothing! We wait until it's over!”

You don't really want the ending, because the ending will be painful and excruciating.

Don't think about it as others do, as many others like to talk about it and “seemingly” joke when they drink, when smoke, when they are taking drugs, when they intoxicate and poison themselves. I often hear a familiar voice from someone, that says: “ You have to die of something!”

But I'll be darned, when a human becomes sick, I would like to, with all my love, to tug him and ask, if he still thinks the same as before?

Well, a small percentage can be find who smokes until the very end of their own passions or life, until the life turns off.

THE WORLD OF SLOVENIA IS EXTINGUISHING

But however, aren't you noticing that the world of Earth is extinguishing. Don't you notice that the world of Slovenia is extinguishing?

The world of Slovenia is such a pearl, that has so many arsons, so many fake planted arsons from which they and you have extracted so much dirt in your homes, that it won't get cleaned for some generations, if I don't rather say or reveal, that more thousands of generations, will never clean it.

You don't have the system and you won't even get to the point of the system, which could be turned on, to cleanse rocks, minerals, water, soil and everything that is in the air!

My dear ones, that what they are knitting through the sky, when you are so numb, not that they only close the sun before you, because more suns appear, but they close the sun over and over again!

Why are you falling for these stupidity, that the Earth is overheated and that is necessary to spray, so it gets dark? It will get dark in front of your eyes as well, when you will start breathing and when you won't be able to breath anymore!

THERE COMES THE TIME OF DISEASES, IN FEW YEARS THE HOSPITALS WILL BE SHUT DOWN DUE TO LACK OF STAFF

Actually the time of diseases is coming. Disease will hit above you because you were asleep and you've overslept.

And I'll be darned!

You keep on forgetting, that even formal medicine is just a human, or at least for now, until they won't give you some robots in the situation and will chip you just so they can program you and seemingly align, even and shape, you aren't even aware that very soon, **in two, three years, the staff will disappear, those that work in hospitals, that are giving themselves for you over and over again and you are losing the stuff that has most quality, people who are connected with heart and soul, to help.**

Not everyone are bad! You can find many good ones among them! But **the good ones are suppressed by those who want authority and money.**

And I'll be darned!

What use is it to you, once the Grim Reaper comes? But this Grim Reaper will cut down many. Even those who are on a position and they won't have another opportunity and another chance for an exam of transformation! There is no place, where we could hide in Earth, to gain immortality.

Even though **some might have immortal bodies - those that will rise and those who will be moved. But not everyone will be moved and saved from joint path!** You have to be aware of it, because each of you is trying. But many aren't even trying, I will say. **But know this, considering there are more and more diseases and less and less people, at one moment, all the hospital's entrances will be simply locked down. Hospitals won't operate anymore. Health system will shut down.**

And I ask you, I'll be darned, what will you do then? Where will you turn then? Where will you turn, when Mother Nature won't exist anymore? Who will you turn to? Maybe to gallows only or into a robotic state?

WITH CHIPPING THEY WILL SHUT DOWN MONEY, SLOVENE NATION WILL DISAPPEAR AND SLOVENE WORD WILL DISAPPEAR

Chipping is definitely something that is coming before you. So quick, you won't even turn around twice, when they will offer it to you as the best condition. Why? Because they will shut down money.

If you won't do anything and you won't contradict and you won't say anything, all of a sudden, they will erase you. And as they will be able to erase money of yours, IF YOU WON'T STAND UP AND UNANIMOUSLY, BEFOREHAND STAND UP FOR YOURSELF, you will run in to your own ending, where Slovene nation will disappear, Slovene word will disappear and foreign energy will rule upon you.

BE CAREFUL NOT TO FALL ASLEEP! Otherwise you will come in to a phase of ending, where Slovene language will be heard only here and there, in a close group around the home and hearth.

WITH TIME THEY WILL SHUT DOWN PUBLIC SCHOOLS AS WELL, ONLY THOSE WITH MONEY WILL EDUCATE THEMSELVES

Not only hospitals will shut down, also state education for simple people will be shut down, for those that are seemingly humble. But right in humbleness, is where we can usually find the most sincerity and sweetness.

My dear ones **there will come a time when only seemingly wealthy people will educate and school themselves.**

But, I'll be darned, again, they will have something with which they will be able to balance - paper money, or chips or cards.

ARTIFICIAL INTELLIGENCE WILL BE USED IN ALL OFFICES

Do you know, that in this Slovenia of yours they are importing artificial intelligence WITH ALL THEIR LOVE?!

Make sure you propose a toast make sure you are making love. Make sure, that you enjoy each status and that you go and see your own future. Because exactly what you will be looking at, that is where you will become!

They will drive it to you in to the city, in the centre of Slovenia, because you will, just like that, accidentally encounter artificial intelligence. But **this is your future and your ending.** Because, **they will use artificial intelligence in all offices.**

Do you even know what it means artificial intelligence? They already have novelties in tax offices, but you don't know anything yet! Be awake, observe and watch.

Artificial intelligence is actually a robotised mass, that is seemingly dressed as a human. That means, it doesn't think as a human, because it uses hundreds and hundreds percentages of its own brain, if we can even call it as such.

And artificial intelligence will destroy you and will make your own ending, if not the religion, if not the disease!

Be careful, **artificial intelligence is created only with a reason of destroying you!** What good does it do to you, when an artificial intelligence will work as robotised mass?

These are people, that are robots and are without emotions! But, they build themselves in emotions, because on the foundation of these emotions they will rule you and destroy you.

I'll be darned, even this novelty is coming among you. Make sure you accept it with love or you sleep and wait, that instead of a living woman or a living man you rather choose a robot. Because anyhow , you Slovenes, you say: " There is nothing to find anymore! There is not much to it. There is nothing wise anymore!"

C'mon! Wake up!

SUN IS THE SOURCE OF LIFE, BUT THEY INTENTIONALLY BLOCK IT AND AT THE SAME TIME THEY ARE DESTROYING NATURE.

Why are you becoming numb? Why are you giving up?

Because, simply you don't have sun anymore. Because, you don't have a fundamental living energy. Actually, sun is the source of life. When they block it and when, in the last year, you only had seven sunny days available to you and not mentioning, luckily, because you had holidays and people were somehow unemployed that day, and you are still being occupied with the fact there is a fog.

The fog was descending all the way down to your houses.

But I'll be darned. take a deep inhale, so you will feel the poison, that is radiating among you! IF YOU DON'T DO ANYTHING, YOU WILL BE FINISHED! And not just you, as human beings, but nature too.

Can't you see they are mowing and cutting down trees? Well, at the moment it stopped, because everyone are getting a little cold in their bums, if I can make a little joke. **But they are cutting down your forests! Your forest is cleaning your air!** Don't you know that? What were you doing at school, when you were educating and schooling yourself. **Don't you know, you need bees to pollinate, to have food, to have fruit?** Don't you know anything? Have you overslept your whole life, my dear ones?

If you won't do anything about it and stop the destruction our your Earth, the Earth will shake more and more. Don't you notice, that you have more and more earthquakes in Slovenia, of which no one talks a lot?! It doesn't seem much, but just as much as something is preparing.

WE HAVE RADIOACTIVE WASTE EVERYWHERE

And not just that!

You are forgetting, that you have got radioactive waste almost everywhere. Your sea is full of radioactive waste, full of pollution, that is from else where, it is from foreign countries and lands, that they are bringing to you.

But I'll be darned! Slovenian is just asleep! Well, they are just burning it. That's what they're doing. They are processing it. They are spraying it.

Don't you find it weird, that the foreigners brought, into Slovenia, all of what they weren't allowed to use there anymore?

My dear ones, this doesn't go only for farmers! If there are no farmers, there is no food! Who will produce food for you?

They will give you pills, so you will be able to live? You won't live from air or love, because they will turn off your emotions!

FREQUENCIES, THROUGH WHICH THEY INFLUENCE ON US, ARE STRONGER AND STRONGER

Frequencies, that they have and through which they influence us are stronger and stronger. Your phones radiate more and more. But you still say: " It's not 5G!"

I'll be darned! My beloved soul! They just simply turn it on here and then. That is why everything is whirring.

Go ahead, think, when did you hear the clearness, silence and tranquility in the air? You forgot about it!

But not because of the collective mentality but because, they are entering more and more and manipulate you.

At some point they will overcome your frequency and you won't think anymore, you will not feed yourself anymore, you will not feel, you will not move your body, because you will not be able to move yourself, because they will turn off your brain, because the pressure will cause all of what you don't even dare to think of. You won't even think!

That is why do and construct as early as now, my dear ones, until you even have the possibility.

SLOVENE LAND WAS POISONED BY FOREIGNERS

Slovene land was poisoned by foreigners, who came to your home, in to your place and haggled and took almost everything.

But still, you have people in authority , that are getting money again, which makes the world go round. But still it doesn't give them immortality!

This is quite a small consolation, but paying for it, for each that is involved in any kind of corruptive act or was a witness of any of it and didn't do anything, he or she still is a culprit and co-creator of pain, in which, later on, all the souls and living beings will be drowned in, this is something you don't even know.

Not everyone will be transferred. Not everyone will be saved!

ON EARTH, DISORDER WILL PREVAIL, MUSLIM RELIGION WILL DOMINATE

Just have a look on planet Earth.

A big disorder will prevail. Because, once someone snatches someone, who is sort of a prototype, it is actually all set as a plan just so the disorder will rule.

Religion will soon overflow the whole world. The Muslim religion, my dear ones! They are supporters of their own religion.

I won't support one or the other, saying that any of them are brilliant!

There is not one religion that is pure, when anyone is executed in the name of God. Remember this and keep it in mind!

Therefore, unfortunately, there is no pure religion on Earth!

And however, already through history, even if it was derived and set a clean branch in order to preserve at least one branch, it was necessary to remove few people that were obtrusive, transformed or something like that.

Mostly, not just that - this will happen quite soon, in some longer weeks, the muslim blood will slowly start dominating the world. But not just the world, my dear ones, you are as well, Slovenes, part of this world. You will not get away with it!

The three year period can be extremely bitter for you as well!

But just because you are asleep. **And definitely quite few things will shift you, once you will realise, that it's time, to stand up for yourself.**

Pain that is coming among you, it is happening just so you will wake up, so you will finally stand and stand up for your land, for your life, for your offsprings.

If you don't feel like living any more, think of your own children. Think of your own grandchildren. Think, if you don't have any of these, you at least have a dog or a cat. If you don't even have that, you at least have a bee, that pollinates for you, that pollinates and gives you a chance for the fruit to be born, so you can feed yourself.

Think, my dear ones! Don't be ignorant, because you and only you will bring yourself in to your own ending.

SLOVENIA IS NOT FIRM ANYMORE

Let's go further!

Slovenia is not firm anymore. Have a look at Slovene's land, as the floor is dancing, cracking and collapsing. Bigger cities literally float.

Don't you notice, that all of sudden the roads, houses and homes have started to crack and collapse?

Look, my dear ones! Here and there even half a meter of earth is descending and collapsing. And all you do is look straight ahead.

Ljubljana is already dancing a lot. Celje is collapsing drastically. Even Maribor is not that far from it!

Look at the roads, when all of a sudden there are shafts and all of a sudden there are wholes. That speaks about the fact, that the earth under you is changing. It is getting a big hollow mass or volume. I hope I translated it right!

That means when the earth is becoming hollow because of the following, because actually also the water is moving away and there is a new space arising because of the movement and

shaking, which is so tactically set up by the modern technology of yours, which you don't even want to see.

And maybe it is good, to not see, because once you will see it, it will be almost too late!

My dear ones, **when they influence air, they influence the fact that the Mother Earth's breath is weakening, the Earth is opening beneath you. It is becoming hollow.** Which means, when the surface starts becoming hollow, and the city starts collapsing, all together starts falling apart.

Do you think, when you cut down trees, you are destroying the vacuum above. When you are poisoning the air, you are cutting down trees. **Literally, as above, in the same depth, you are destroying harmony below.**

But you live on the crust, my dear ones! But you live on earth, not under earth! Aren't you aware, that everything that is happening to you, is happening because they are taking you in this direction! Everything is artificial!

To have that kind of cold, can't you see, don't you notice? This is not natural, my dear ones! This is not something, that happened because nature took its course. No, my dear ones! **It is because they do this to you by affecting it with a modern technology.**

And just have a look at your relationship in your homes - very bitter, very sad, very dusty, I will say.

THE TIME OF CENSORSHIP IS COMING, THE CENSORSHIP OF PUBLICATIONS, NO MORE FREEDOM OF SPEECH

Be aware!

Not only Earth of Slovenes will change because of the sleeping stage, but the Earth's population that isn't capable, incapable or are afraid to oppose or set boundaries and express themselves, to those **that daily planned censorship is coming to. The censorship of the press, the censorship of your publications.**

But, you know, the most clever ones, the wisest ones, the most intelligent ones sit and write. **Don't you notice, that people are paid for it, to write and to sign, to comment and create unbearable situation?** That they are provocative. That they are rude. That they are humiliating.

You don't have the freedom of speech anymore, are you noticing?

And the time will come, when you will not dare to even talk, let alone write.

Why?

Because you are in democracy? Because your ancestors and you sacrificed yourself in history, so you will live in peace? Were you born so you will carry shields around yourself? Were you born so you won't dare to step out of the ashes anymore and out of your own protection, that you will put on?

Even if you protect yourself from any kind of radiation, my dear ones, be aware, that food that you are consuming and you go and get it, or you move out of this wrap, it is ten times worse and a shocking wave on healthy bodies, when they just slightly patch up.

Think where you're sailing!

THE SYSTEM OF BANKING WILL CHANGE DRASTICALLY, IT MIGHT SHUT DOWN IN A CERTAIN PERIOD

You have to be aware that your banking system will change drastically. In some period it might even shut down a little bit. As if it doesn't exist!

Not just that the school system will change and shut down in public schools, in public institutions UNDER PRETENCE, that you are unbearable, you are not well raised, that you are dangerous, that they are dangerous to each other.

On the other hand you are so very sleepy, that you don't see, that games are programming, creating violence. And that INTENTIONALLY, on a certain frequency, they catch a certain mind, so the human as well as the child does something bad.

And because of one or five people, in a certain country, you will all be punished! Do you find this fair? Maybe this is exactly what you need!

IN A YEAR OR TWO, WE WILL BECOME A SECOND CHINA

Can't you see, that you are and you will become, in a year or two, a second China? China or those ones that are the most expanded countries that have complete control.

Chinese are a very meek nation, I will say. Seemingly very meek, but very massive, because they are the prisoners of their own home, their own life and their own surviving. Or their own control.

Can you imagine, that in their world, on every step, they are accompanying you, not just by cameras, but by heat waves that read emotions of people too.

That means, that they are ranked by how good they have made or how much do they bring in to obliging and slavery of foreign people or to foreign people, that are seemingly governing, but they are not governing anymore.

The same has started happening with you.

They are preparing and setting the public lightening of control. This artificial yellow lightening with certain signals, with certain "cameras", if I may joke like this, let's say I am joking, it means, they are observing you, not just that, they will watch what state are you in - or that maybe you are drugged, which they will show you, as this is a great solution!

Of course because through that they will see immediately, who is drugged, who is inebriated.

Good, in one moment you have 50.000 people on a road and five of those are like that. What about the rest?

Let them punish those ones, if they have to! But you will all be captured!

Don't you think this is something that will numb you?

When you will want to overtake a car, there will be a policeman waiting for you on the next exit and take everything from you. **They will give you points for being misbehaved, intolerant and inappropriate, which means they will rank you.**

Rank you in those very exemplary, in those that are so so, in those, that maybe made or lost a paper or two, maybe unintentionally, out of their hands as chewing gum or maybe a cigarette.

My dear ones, can you imagine, when you are so misbehaved, when you throw your cigarette butts or that something after a cigarette, when you get high and enjoy, you throw this dirt everywhere. You will get the least points.

Which means, when you will get the least points, my dear ones, because you are misbehaved, because you aren't adaptable and most of you are, unfortunately, like that, **you will get a very low ranking value, through which you won't be able to buy healthy food and to you it will be given only the bad.**

You won't be buying anything in shops, because with time and very soon they will start closing shopping malls, that they have built so massively and were destroying such beautiful land!

My dear ones, **they will bring everything to your home, because you won't have "time" for purchase.** But on the other hand they will say: "This is the cheapest. The food is cheaper." And that is how they will bring, what they will deliver.

You won't be able to use public transport anymore, neither, NEITHER any services that will be in your support.

But I'll be darned! **Why did you make all the dirt?! Why did you spit on the floor! Why did you give the look!**

Are you aware this is something you already have inside Slovenia, but you still don't see!

You are still asleep.

But in two or three years, this can be a bitter state. If you will even come to that, if you won't boil sooner or the aggression of foreign invader will bring you in to a different state.

SLOVENES, WE LOST EVERYTHING THAT WAS OURS

Did you notice little Slovenes, that you lost everything that was yours, because you lost everything - from air, from actual crafts or, how can I translate? as airports.

Do you really think this is still Slovene?

My dear ones, it is foreign!

Those, that were doing bad things in ancient times, unfortunately, I will be direct - Germans were the ones that bought everything up. There are others at the background. I will not mention everyone.

But you know what the history was like. And the history is, again, preparing and renewing.

When there comes a time, your airport will shut down and it will become martial, for a transit and to go further in Europe. What then?

You have all the dirt already now! When they will take away all the airports and just transform them in a military base.

Why do you think you are fenced, my dear ones?

Why do you think, that Slovenia is fenced in barbed wire? C'mon! Those that will want to enter in mass, they will tear down that fence of yours! You, that are in minority, you won't even dare to climb over the fence. Which means, that you will become the prisoners of Slovene land for quite some time! You will see, how bitter you will feel.

Beware of this!

Because they are poisoning everything, they are poisoning your water too.

You will notice very soon, that it is, but, something is swimming in the water, that is not normal. They will again defraud you will titles, that it is necessary that water needs to be slightly boiled. Nothing will help you!

Because poisons are actually entering the body and if the poisons are in the air, around you and through each structure of the material, that you put on yourself, through all the detergents, all you do is inhaling the dirt through life.

And know that and be aware, that there comes a time where there won't be any healthy food!

Are you aware, that people from elsewhere, where they already have poisoned soil, poisoned air, poisoned food, poisoned bodies and are, because of radioactive wastes and radioactive radiations of different "seeming" factories, that are still floating and releasing radioactive ways, the fruits are actually really good, seemingly firm and compact?

And be aware!

And exactly that they will, from the area where they have, few years ago, lost one of the very important, I will say, certain factories, that were radiating radioactive state. I will be careful what I am talking about, yes!

Which is to say, you will get this food in Slovenia. And you already have it! Just you still don't know it! And when they give you this "healthy" food among other food, everything is radiating, everything falls apart.

My dear ones, that is a cycle, in which you are , in a way, rolling. Wake up!

THEY ARE ADDITIONALLY POISONING BODY WITH VACCINES, THROUGH VACCINES THERE COMES CHIPPING

I don't want to be pessimistic, but, this isn't everything!

Because of that state, where you allow, as Slovenes, that the dirt is entering the Slovene lineage, you will be less and less fertile. You have vaccinated yourself too much already! And vaccination might even become obligatory, because, so they will give you even more embryos and even more dirt in the body.

What do you think is inside the vaccines ?

One period, through history, when you were a little younger, the vaccines were approximately, approximately so - so, so that they were maybe seemingly harmless.

But the time nowadays is actually destructive. But only because, because if you would be aware what they are putting in vaccines, you would be coming into phase in which you would scream. You would tear skin off people! That is why, be open-minded!

I am describing you the state, not just to somehow open you a vision and bring you to the point of exploration. **Always that, remember, what they PROMOTE THE MOST, THERE, THEY WANT TO HIDE THE HEAVIEST STATE!**

That is why be awake!

You are in a democratic country, where you have the right to express yourself and where the combined power can have an impact. SPEAK UP! Become aware of it. Or else, even if you do not want to vaccinate and you say, that you are already pass the vaccination and that you don't have children anymore to take care of, you have to be ware, that **through vaccination comes chipping.**

Chipping - they will come to your schools, into your work place, in your institutions and simply, they will chip you and tell you there is no other way! But exactly that, Slovenes, you will get, because you do not express yourselves.

SLOVENES, WE ARE THE NATION THAT NEEDS TO BE LOOKED FOR

I am not talking you into hollering, howling, but just that you wake up and to observe.

Truly, My heart and soul pain me, because you are such a potential, because you Slovenes are one of those people, that are extremely dear to Me. Because, **people, as you are, need to be looked for!**

You are extremely capable, extremely diligent, extremely hard-working, can be extremely dedicated and connective. But you don't have time even for yourself, not mentioning for people around yourself.

You don't have time anymore, to stop and to take time for yourself, for chatting with yourself. For the chat or inner conversation. Or for maybe to simply just be.

Because when and if you put yourself in a position that it could happen, over and over again someone else steals your time. And if you do take time, to move away, to move away from the

field in which everything is electrified and filled up, that is when you are actually traversing into phase in which you say, that you can't even have enough rest anymore.

Time is increasing so fast. Don't you notice, that for more hours, you have shorter time. But you are still working in the same tempo. Why don't you decide and unite and speak up, that you will work less and do more? Why don't you force it and demand, to work four hours? Why do you work more? When, even, if they give you a penny more, country or national budget takes it back.

CONTROL THROUGH TELEPHONE, LIGHTS, THOUGHTS, VIBRATIONS

And not only that!

They will massively put you in despair by controlling you through the phone, through lights, through thoughts, through vibrations.

How many people do even sleep without the phone?

They are rare or you are!

Majority of people, if you observe, you will notice, you are simply setting something every time, if nothing else, you are at least setting an alarm in the middle of the night.

C'mon, observe, **even when you turn off the phone, it still radiates, it still radiates the restless radiation.** Therefore, pay attention to it.

Restless radiation is making you sleepless, it causes fatigue and not regeneration.

That is why pay attention to more and more, consume substance such as pure vitamin C, such as pure vitamin D, that you can get, or through sun or through other accessories.

Soon they will laugh at you because you will feed yourself not only with regular food, that will not be grown anymore. Because you won't be able to grow it anywhere, you will only consume it in a way as in your movies - with pills or such placements, in which you will feel nauseas, because you will hide under the chamber or glass surface, where you won't be able to breathe anywhere anymore and to somehow move freely.

In the era you are entering, my dear Slovenes, the pressure from government's side will get bigger and bigger. You will say, even if you don't have a private business, many of you will say: "Ah, this is non of my business! I am not self - employed person! "

My dear ones, maybe you work for someone in a private cooperation and you are part of a private business. As some people say or talk about : " I am not having that kind of job, I work in a civil service. But the civil job will be getting you on your knees more and more and again you will say that you are not part of the system.

Well, how not my dear ones?! Everything that is brought to you, everything that they deliver to you, everything that they introduce, everything that they set up, concerns each and everyone!

You didn't even notice, if you aren't buying an apartment, that they actually, seemingly adjusted a new law, an actual law, which is ADJUSTED and COORDINATED to an actual certain regime, that rules you.

You don't observe enough. You don't collaborate enough!

My dear ones, in an era that you are entering, you will actually socialise less and less.

More and more you will groan and more and more you will stare in to that phone screen, because that is all you will be left with. Instead talking to each other, instead of feeling the energy of others and to maybe at least make love, if not anything else. If nothing else, at least talking to each other. If nothing else, at least give a sincere look, but you will stare in a screen more time, which will be soon replaced for a computer system, that will show you everything regarding chip and chipping, where the tablet will open in the air for you, in front of you just like that, in front of your face. You will slide it a bit here and there, as We do in Our future, when we look a bit through different times and spaces and we slide a bit like this, to see what happened, what is and what will be. Well, and this is how you will be, in a way, coming closer to Us.

But you have to know that We are somewhere else, in different constellations and different spaces for countless time, of your time.

NEVER AND EVER WE MUSTN'T ALLOW THAT OUR MOTHER NATURE IS DESTROYED

But even if you go forth with technology, you have to know, that never ever you mustn't allow that your Mother Nature is destroyed. That is a foundation!

If you don't make a stop to it, you will be doomed!

Because through that their radiation of their apparatus, their knowledge, how to destroy the world, because contemporariness might seem likeable, but it is CRUEL. You will namely traverse in to your own ending of your own outliving.

That means, that the Earth will be opening more and more. That means, that you will demolish Earth more and more. That means that you will manufacture less and less. That means that you will be hidden in the interior of your home. They will more and more make it seem as primeval or for your own good, that air is good under the air conditioning, because it is an interior cleansing, interior system, which is perfect. As those, those chicks, that are on the light bulb and under the lights, so they grow. Well, this is how you will be very soon as well.

In the apartment, you will install certain kinds of lights, so you will warm yourself up, it will radiate you, so that somehow you will be able to grow and somehow they will allow you, to at least warm up.

Modern technology is actually taking you in to where all the old , some sort of counters, if I may express myself the way you do, will be, replaced inside with new ones, modern ones and that will

work only with new modern technology. Which means, that they will also link the electricity in the whole network of your home, with all of your apparatus - with a stove, with a refrigerator, with all the kitchen utensils that you are using.

And if everything won't be the way it has to be, in their modern technology, because, unfortunately, I am telling you that even your old stoves that were on firewood or even gas, that was much better from what you have now. Even electricity is better than an induction, because that as well radiates.

But however, it's healthy, it's a modern technology. You are using it, because it is quick for cooking and quick for getting old as well. So **all of this modern is bringing you ageing and getting older faster, as well as deviation and weakness.**

Let's move to the area, about which I could say what good lies just ahead of you? What to say?

THE TIME OF A NEW ERA

I can tell you about you learning new language. I can tell you about, you learning new faith and new religion. I can tell you about you wearing new clothes and changing them. I can tell you about you surrendering yourself to people that you will never let close. I can tell you about you finally having an opportunity and possibility of getting rid of you, so you will finally move, or on a new location of residence or you might even run from yourself.

Much good? Few things can be find.

Maybe that you won't speak to each other through phones, because you will radiate. Maybe you will realise, that through telephone apparatus you will suddenly radiate some weird mixture, as they would dip you in uranium a bit. Maybe you will get coloured a bit? Very positive!

But, however, you will have no idea from where and what is coming because well, at least you will be different!

Not that only your colour, shape and body will start changing but you will start becoming very different.

You will walk as robots do, passing each other. Maybe you will only sit in a car, because you won't drive it anymore, but you will drive nobly, because the car will drive you by itself. At the same time it will control you, because that kind of a system you will have in your home as well, where they will actually tell you when to go to bed, when you will make love because you won't even make love anymore. You won't be making children anymore, that is why the new era is coming.

Look at this beauty!

You won't be given birth in the time of new era. Great! Sexy and very stable for your kinship.

But in your new era in which you are entering, you will find it really nice - first this modern technology, and then you will actually choose what kind of a child you even want to have. Won't this be great?

You will log onto computer system and put him/ her together.

Bravo! He or she will be able to have furry ears, maybe will have big eyes, maybe it will look a bit like a bear, it might be such or different. But, I'll be darned! **When you will be fed up with him or her, you will simply throw it away!** It will be without a soul anyway, because it will be without energy, because it will be without life. That will be your way of thinking. Won't be that be great? Modern technology is bringing you truly the best of the best. As it was in history.

And then few will be there who will make experiments where they will become geniuses. Eh, forget about your computer games. Those will be old junk, because among you there will stand and live exactly those that couples will create and you will be able to obtain them for very little.

Look, nowadays, in certain countries you can simply choose puppies. Turn on the system, whatever kind you want, they will prepare it for you.

Well, but you will, instead of watching your child grow in a belly, you will actually raise and watch how your weird embryo will grow. Bravo Slovenes! Bravo the world! Bravo, the Earth. You are perfect!

And then you come to the point where there is the best of the best, when all of a sudden you will get lost. And all of a sudden you experiments will swallow you.

And I'll be darned!

Because you have a soul somewhere, they don't have it, you will start coming together. And this is how a new rase arises! And that is why my dear ones, you ALREADY have in your body all that you will repeat again. And again the history will repeat itself.

And I'll be darned! Look at yourself!

You always say that you have something in yourself that is not human like, something that is different, something that is dark, what is, what is. But, exactly these experiments, they already existed on other planets and you only go through the memory again.

And oh là là, **soon a human will be just a fossil or a species that is gone.**

Those who will successfully stay, those will get immortal bodies. Bravo! I will say:" Bravo ours or bravo you, that are asleep!"

You see, there will be something good to find in your world as well!

And not just that!

You will stop socialising. There will be rare ones, that will gasp for it, to find a partner.

Won't it be easier to go in to a factory, in a " factory" , if I might joke like that and make yourself a great man. Bravo!

Girls, you will go and you will make yourself a great man. You will wait a little bit. You won't even need to pay much even, because it will be almost for free. And he will live with you. He will handle you, do you, he will do everything you want. He will do everything, you want.

And this artificial intelligence or this artificial species will be the best thing, because it will learn all of your emotions! So, that from the outside, what you have on the inside known as reptile, as other creatures that you are cultivating, you will cultivate from the outside too. And you won't have Ona - On (Slovene dating platform) anymore, you won't have dating anymore, you won't put effort into it anymore, to find anyone, you won't cry anymore because you will have it at home. And if you are going to be fed up with it, you will turn it off. Well, at least you will think you turned it off.

That means that, if at the certain time he learns from you, there will come a time when you will have to learn from him! That is how it was! That's history. And there is nothing else, no novelty but the one that you've already experienced on a previous planet and didn't survive. Bravo! Bravo our team!

Isn't that good? You will come to an end! Again in the same story that you already know.

ATTACK ON A NUCLEAR POWER PLANT WOULD MEAN OUR END

But that isn't all! Look on the brighter side!

Not that only the rockets will fly everywhere, in different countries and countries will disappear. That is when it might be, you might say: "Uuu, that's there!" **But at some strange coincidence it will happen that maybe something will come rushing to you as well. You don't need much! Just one nuclear missile and you're done!**

You see how tiny you are, and how quickly you can come to the point of an ending! Isn't that a great placement? You can't say you aren't progressive! You are very progressive! And you will be even more progressive because you will improve nuclear a bit more, so you will be even better, even more perfect.

You aren't allowed to use wind power!

Heaven forbid, my dear ones, **because this will disrupt radiation, that will connect as some kind of sensors,** I will put it like this, so I won't talk about it out loud or express myself too clearly. Because that will disrupt different radiations as well.

You know, as trees, they will chop down this as well, which means they will create a field of new technology.

WITH A MODERN TECHNOLOGY THEY WILL CHANGE GENETICS AS WELL

Well, let's go to an even better placement!

Because more pillars like that there is, stronger the connection, stronger the web. More you will be like those little spiders or a prey in a cobweb. Won't that be great when they will slightly make bigger signal through town so you will change your genetics.

But who really cares about genetics? Who cares about genetics anyway? Isn't it the same if mother looks a bit different from the father? Who cares about genes? So what if children's

genetics are changing. All of this is normal, because through history everyone mutated, and everyone was changing.

MISLEADING MEDIA

You know, the best are your articles! These are the best! Especially people that create those kind of articles!

But, the winners are the readers, because everything that is written and it is seemingly written based on science - all of that is golden! Truly, read, because that kind of readers media needs!

Pay attention!

In some period of time everything that was poisonous, they will try to portray as healthy! They will prove it to you, that plants are growing better in that kind of conditions, than when they were in healthy condition.

That is when you will wait a month for the fruit, but back then you waited for nine months for the fruit. Well, isn't that great? Isn't that wonderful? Look how the modern technology is welcomed! Sooner you will feed yourself, sooner you will get poisoned and sooner you will somehow get out of here. Good, the cycle of everything good!

THE COUNTRY WILL OVERTAX US

But, dear little Slovenes, not that you will only breathe fresh air, if I can express myself in that way, you will especially breathe big taxes. Taxes will increase. Everything will be the most expensive!

Not just because you are and you are going to be in this world as the ONLY ONE country on planet Earth as the most corruptive country. You are victorious, you are on the top. BRAVO ours. You are the best!

The biggest elite is yet coming, because you will be paying not just higher taxes but you will be paying for everything, ten times more than in foreign countries because you are different! Because you have bigger stomachs, because you breathe more air, because you are different in rase - you have to give more!

Maybe because you are smaller? But that is exactly what you need! You know, **more they will push you in a corner more you will give.** As your Earth.

Then they will chip you artificially, because you will say that this is the most trendy, that you don't need to think where you will put your cards and if you even have them on you. There won't be any thinking, what and how will you lean your little arm or your brain and something else as well, it depends where the chip will flow.

And not just that!

Even if they will give it in your arm, the chip might move and come exactly into brain.

But I'll be darned!

Just by chance it will flow around your body, because it can be driven as a small automobile.

You know, brain is the centre but there are acupuncture points as well, through which you can connect to your brain. That is why the system is so very genius, because it figured out, where to put, so you can be controlled.

But you won't give a hoot about your children anymore, where they wander! You see the good thing?

This is the best! And you know why? **Because you will just click on a phone, if you will still have them then, because things will be a bit more modernised, you will know exactly where your son is, where your daughter is, what is he/she doing, because you will be able to control him/her. Isn't that the best?**

And of course, when you will want to see the attackers, that someone is attacking - of course they will manifest a lot of fear. All the worst!

My dear ones, c'mon, **be awakened enough and think of that - how many scoundrels walk around the world every day?** How many times it happens, that in a shop, among thousands of people, ten people take bread just like that?

And because of those , that are hungry, those who even dare to take it, because they are hungry, or they don't even dare to take that, they will punish all of those that walk and are somehow setting things in a fair way.

But you know, you shouldn't look to those that have a lot! Otherwise all of that comes towards us and all of that, it is again what awakens you.

My dear ones, times which you are entering won't be so brilliant!

You will have less and less Sun.

But do you know what will be the best?

The best what's coming is that the "seeming" fog, that is winding entirely to you, to house, you will wake up in the morning, open your lungs well and inhale - you will come to your own ending quicker! Because, through that you won't see anything anymore. Not even crafts. Nothing! Not even Sun, because there are more suns that are moving around.

You know, that is really good! With that, you won't see anything that is above. No transitions, no visitors, no constellations, no novelties! Good! You won't have to worry about anything! You will be careless!

Therefore in your modern politics and all of those who are placing themselves are taking good care of you, you have to admit! They will think and they think instead of you. And instead of you they won't do anything. Or they will take care of you in such measure so it will appear, seemingly, good for you.

But, you know, you are still people!

And in some period, when you are breathing and you are insulting each other, when the pain is so big that you simply fall under the burden of pain and helplessness, that is when you will become too weak to stand up. And that is when you have two options - or, you finish your life, what you definitely won't or you will simply inhale and awaken the drive inside of you.

Well, and when you will start waking up the instinct and I hope there will be a lot of you who will finally wake up and admit to yourself that you don't want things like that anymore. But until you are supporting, until you are accepting they are actually setting up and serving you that which they want.

Isn't it good, when they set up one system and give you another system, the old system always consciously moves away, because they set up a new one. **And you will start entering the new era and you are, with one foot already on the other side in modernity, that is shaped purely by the very top, of earthly everything.**

FOREIGN CIVILISATIONS WANT EARTH FOR THEIR OWN EXISTENCE, BECAUSE THEY DESTROYED THEIR OWN PLANETS

But you have to know about one placement.

You are not the ones who are the most important civilisation for the outer world. **You are getting in a way to all of those that don't like you!** So that you won't think that civilisations that are fighting against you for centuries, that they would enter your planet, because they are without planets, because they did destroy their own planets, **they are searching, for themselves, their own system, their own life and not suffering.**

It means, they need Earth, they need solidness that you still have!

But it won't be long, when on Earth it will disappear, in the majority of time and space, the very solid earth and it will be overflowed by the world of waters.

From compactness, from compact continent, that you know now, only islands will be formed.

Can you imagine what is coming over you?

But well you don't know, little Slovenes, you will be less and less protected. You are already in a bubble. And you could still be in a bubble if you would at least look into the sky! That is what you need to pay attention to!

And let's go one step further.

In modernity you won't dare to write or actually you won't need to write anymore, because they will insert everything into you, as a sort of chip in your brain and you will just think and everything will start writing.

Hurray for those who don't like to write!

You won't write anymore and you won't know how to write anymore! When with time, they will shut down the system, you won't even read anymore and you will be haggled by them. And again you are through history, in a new old cycle, when you will be drawing tic-tac-toe. As they

are, nowadays, drawing tic-tac-toes on the sky, you will be drawing tic-tac-toes and giving your finger prints, because you't know how to do anything anymore.

You know, the more the system got to you and offered you its help, that is how much you are taking from it.

WITH FIRES AROUND THE WORLD, THE EARTH'S VACUUM IS OPENING UP

And let's go one step back!

You know, the animal world, so very beautiful and magical world. On one hand, worlds that are pure and beautiful, you are burning them down. People. Not you, in this room, but **people with a modern technology. You are causing the world to burn.**

Well, what now, Slovenes mostly say: "That is there, somewhere in Australia. Well, you know, that is there in those rainforests, there, where America is. Well, you know, that is somewhere out there!"

Mhm! But **that is opening the Earth's vacuum. That means, when the nature start breathing shallowly, the Earth is not closed anymore. That means, that when the vacuum above is released, the Earth opens and slowly starts going separate ways.** And that is exactly what is needed!

If we add modern technology as well, with which you can open the Earth and finally look into the world under, you will be the happiest on planet Earth. And you know why?

Because you will finally see what you have in the heart of Earth and you will realise that all the knowledge that was given to you, that it is null and that pain that was inflicted upon you, because you didn't learn such nonsense, that the Earth is full and that in the centre there is an actual core, which is boiling and from which, later on, the Earth is made and bla bla bla bla bla...

And not just that!

You will realise, that even the existence of monkeys and that a human is Neanderthal and developed out of monkeys and even out of some of those cells, you will realise, that you will only laugh.

And then you will be asking yourself - how much pain did they inflict upon you through the system?

I'm not saying and speaking that the system is bad! But, compose a system, that is going to be good!

And just a little bit, and you will be in a world of modernity, you won't educate yourself through the old system anymore, but only through aunt Google. Aunt Google will set up only what they will want to promote and program.

Therefore you will be learning new knowledge, technics, new modern placements. And everything will be more modern and everything will be better!

I recommend you that you hold and try everything out, what they will give you on a plate! Because only like that you will be full and only like that you will know that what you've got, is way too little.

A YEAR 2025 CAN BE VERY DISASTROUS AND A TURNING POINT

But soon you will realise, that the fifth year can be extremely disastrous! Fifth year can be a big turning point. But not only for the world but for Slovenes as well!

Because that is when a new era begins again, new era and Slovenes, that will be staying in minority, you will be able to recreate new small pieces of Slovenia in minority!

My dear ones, there is nothing wrong with the world! It is just the time of reshaping. As through history, thousands of years, The Earth boils, the climate changes a little bit and reheat itself. And you can also plant vine and have grapes. And have parties.

Look from a positive side, because all of that boiling and all of those climate changes , for many decades are caused exactly by a human.

But also through history, you will say, that the Earth reshaped itself. Of course it did, it depends, where was located! In what conjunction was it located and in which section of some sort of universal existence did Earth existed, turned and moved.

But you know that - the interesting fact!

The way you can be programmed so the Earth can be programmed. With certain waves you can push aside the Earth and you can stop its movement and you can turn it differently.

Can you imagine, if the Earth stops for a moment your body stops for a moment, the whole world resets! Everything opens and you are frozen in time!

Maybe one or two experiences would be very nice for you as well!

Because very soon they will start performing the appeal of a new era.

My dear ones, if I were you I would rather stick to tradition. You know, better to cook some good štrukelj (Slovene traditional food), rather bake some good potica (Slovene traditional food) that is the best on planet Earth. And bake some cracknels or this sort or that sort, something that you like.

And let the animals out on pasture. And stop massively destroying animals and take from the animals' life, just as little as you need to feed yourself.

You don't need that stock of filth, that artificial meat food. If you stop buying that much filth out there in a shop, they won't deliver it anymore. Rather take what is homemade.

Can you imagine you have some land at home. On that land you produce food.

But I am stopping here for just a moment!

PEOPLE, WE ARE OMNIVORE, NO MATTER HOW WE RANK OURSELVES (vegetarians, vegans, meat eaters...)

When some of you rank yourself as vegetarians, others vegans, third ones meat eaters, I will say to you, you are all omnivore! Why? Let's have a look!

An animal eats everything. Some are vultures, some are, well, somehow inclined to meat. But they usually eat plants as well. If not for anything else then for digestion or to clean their teeth. There is always some kind of harmony! Not everything is just meat! As you know even bears enjoy many things, what earth is giving as its fruit.

Plants. Vegetarians - bravo! I will say, very good!

But do you know, that even plants are living beings? That they have their own soul, as an animal does. That they have their own heart, as animals do. That they have their own thoughts, as animals do. That they communicate, as animals do. So? That they feed off minerals that are made out of withered parts, even out of withering bodies, insects and similar things.

So again, you are not completely pure!

Let's talk about vegans! Vegans - welcome among us! I adore vegans because they feed and pick up as those old, ancient historians. Those first ones, who lived as, I rather not say, in those caves. You know, those who were feeding off and picking up fruits.

But here and then, they picked up some meat as well.

It will be hard to stay pure through history, because also plant, as someone who is vegan, each fruit is alive and vibrates. That means that you eat what is alive!

And no matter where you look, you are intertwined and in oneness.

So if you eat animals, they will judge you because you are killing animals. If you take out of life only as much as you really need to, to be full, no one will judge you.

If you will, as vegetarians or vegans, enjoy only what comes from plants, you know, you are as well enjoying the soul of a plant. And they are the same, as when you speak to flowers, you are as well traversing in the core of a plant, so it grows if you praise it.

As a wife! If you will cuddle her and nurture her and tell her that she is beautiful and stunning, if you won't exaggerate of course, you will even get her on your side. She will grow and bloom. Or the opposite! If you will always trample her, she will wither.

As the plant so the human. So everything is reciprocally intertwined.

Contemporariness is taking us in to not having any plants anymore. That means, vegetarians and vegans, what will you consume? Nothing! Air?

You won't be able to consume air neither, because it will be poisonous!

So, and then we are coming in to the most likeable placements, as we "seemingly" joked few years ago, when we said, that bigger you will be, more plump, more air you will breathe, more taxes you will have to pay! So, they will weigh air!

So, how far are you from that? You are very very close, so you will all become vegans, so you will breathe just a little bit.

Good, let's move on to meat-eaters.

Meat-eaters, I won't say I adore you but I like you because you follow yourself and your sense. You consume what you sense that is right. On the other hand be careful not to consume too much of that meat which is artificially placed. Because through artificial food they give you certain supportive pillar so you are even more wild, even more numb. As an animal which is fed in a cage and is being prepared for slaughter.

Therefore, there is no harmony anywhere! Not in a meat world, not in a plant based world. Why? Because a human has broken the chain.

You know, in nature, not one animal is ever never too dominant. Because whenever one animal is too dominant and it spreads, it already gets other pests, already others.

Well, here, the biggest pest is a human that is shooting wild animals, that are already almost endangered. So, hunters, unfortunately, I can't support you here because my heart and soul hurts when I feel animal's fear and pain when is hunted.

Can you imagine, to put you in a role of being hunted? After that you would never kill an animal again!

You know, **the cycle is like that - the weakest animal is a food to other animals.** And that is something that you were taught somehow in a world of a school system. You see there is also something good in your system! So, you have learnt a lot, you understood a lot, you were thinking a lot.

But you are coming to an era where you will have to stand and begin to look in yourself.

Even on the spiritual side you will be able to do a lot, if you will rise the frequency. But with energies, if you somehow connect, many things can be changed. But the damage that is made is almost unfixable. You have to reshape it physically or stop it.

That is, as if I would say you will now make sure that everyone meditates. Bravo ours!

Connect and meditate so you are giving the positive energy to Mother Earth to regenerate. But on the other hand, from a certain factory, the filthiness and dirt is flowing out constantly. How will you balance that? Yes, until you won't shut down the factory, yes, you won't do anything. So wake up! **ENERGETIC SUPPORT IS NOT ENOUGH! It is necessary to bring your body there and push the button so the pollution stops.** Don't tell me it's that hard?

So, the foundation!

If nothing would be set up, there wouldn't be any consequences, harm and demolition!

But not all placements are bad. You know, you people are resourceful and different.

And in an era, in which you are going to go, you will try to do as much as you can for development. Not just in technology, but to keep healthy food, healthy environment.

But again you will think how to protect yourself, how to put yourself out of radiation, how to cover yourself up? Oh my dear souls, my dear golden souls! This is as if you would put a diving suit on. Well, how will you feed yourself? How will you have enough sleep? How will you multiply? Of course your home will be somehow protected but what about when you look out of your home? Two extremes! **So, again protection is not a solution but the foundation is to change yourself and to express yourself and to speak up what yes and what no.**

WE HAVE THE RIGHT TO BE HAPPY

This is a modern country. Modern democracy, in which you are. And this is the right thing, to express yourself. Don't you want to be happy? You have the right to be happy! I am one of those, who always says to you: "You have the right to be happy!" And I am happy. Why? Because I have Wisdom, with which I dispose wisely. And this Wisdom I give among you so you hear Me.

Many will poke their noses in this lecture.

Let them be many, because they will be ashamed! Because in few months they will repent for each harsh word that will be said.

But today's time wasn't meant to inflict pain or sadness. **But I want to just gently tell you that it is time for you to wake up and to start observing the world around you.**

That is your world. That is your country. That is your expression. That is your word. That is your thought. That is your place. That is your home. And never ever say that it is someone else's! No dear ones!

That is your homeland. And it is right to love and appreciate your homeland. Speak up for yourself. Speak up! Express yourself. Nothing is wrong but it can hurt enormously.

You have an era, in which, if you will react in the right time, you will put the situation of Slovenia differently.

Otherwise, upon Slovenia, there will come an avalanche of coups, different attacks and Slovene blood will be spilled. Slovene little land will run and cry and moan.

But you know if you will allow and over sleep this is exactly what will happen.

You will even loose homes. Everything you put together, will collapse. The system will be changing. Many things will reshaped differently. And you will moan for many longer years.

Please, humbly I plead you, wake up!

You don't have much time anymore. In few longer weeks you are actually passing in to an era, where you will accept changes. And keep uniting. In united power, in united energy, in united thought there is your victory!

Truly, have you got or haven't you got anything, know this, you have body, you have a heart and you have proud. Yes you have that, what you are, because you have produced through history. Love each other! Love yourself and enable yourself a healthy breath.
And that is what you need. And that is something you will face, build yourself.

But I am sure, that your religion, your power, your purity can move the world. You can be an example.

Politicians are not an example. Diplomats are not the example. The example aren't those who are seemingly leading, but people, who are following to those who are at the top.
You know, when you step into an institution, like the summit, like the employees.

When you step into a country you see, that as above so below. Why?
Simply because an opportunity for change of program is happening here and now, where you are, all by yourself.

Let me put it this way.

I truly scattered or We did scatter enormously a lot. Many people will say: "Spiritual Lana!" No, spiritual Lana has nothing to do with Me here.

I Am The One, I Am The One, that has given the Word from Our Creation to you, because I do not want you to suffer. Because I want to see happy faces and not pain.

Don't allow pain, that it changes you forcefully, when love can change you as well.

I will put it this way, for the first part I will somehow finish. I will take a small break and then we will answer to your questions, that will be put in kind of a little box or through thoughts to Us as well.

Take time for yourself and have some rest. And be joyful to be here and to be who you are.

All well.
